

Going Interprofessional: Working Together for Health and Welfare

Content

Going Interprofessional: Working Together for Health and Welfare by Audrey Leathard.

...

Health and welfare professionals increasingly have to collaborate and co-ordinate their practice in order to provide a more integrated service for the consumer. *Going Inter-Professional* brings together academics, professionals and researchers to assess the implications for all the professions involved and the practical developments in hospitals, general practice and community care.

Individual contributors look at:

- * the theoretical background to inter-professional work
- * education and management issues
- * inter-professional practice issues in work with children, disabled, elderly and mentally ill people
- * the implications for carers
- * developments in Australia, Western Europe and the USA
