

Mowing at the Master's Level

Content

Mowing at the Master's Level by Rick Hughes.

...

This book's dimensions may be measured better in centimeters than inches, but if you are considering a job or career in the grass cutting business it is the equivalent of hundreds of yards worth of experience. The author estimates his mowing experience to be closer to a million yards, having mowed grass for 25 years. This little book is a must for any aspiring mower but more than that it is an affirmation that hard work pays off; not always monetarily but almost always spiritually. At the end of the day it is the honest man's labor that will serve his conscience well. Never be ashamed of your hard work for marginal pay. Remember: there is someone who is watching over you always, and it's not Big Brother or your boss.
