The Art & Science of Magickal Creation: The Complete Course in Book Form. by Daniel Keaton.

...

The Art & Science of Magickal Creation is a complete and self-contained home study course in magick that takes you from Neophyte to Adept levels in an enjoyable step-by-step way. It does not rely on any traditional system of Magick, but is a brand new system in its own right - a system that can be applied by anyone regardless of their religious beliefs or spiritual persuasion.

To this end, The Art & Science of Magickal Creation is non-dogmatic throughout, and encourages true independence. The course consists of six comprehensive levels, all of which are presented in this volume, and reveals:

The Seven Basic Principles of Magick.

How the seven principles can be used as a 'mini-system' of magick in their own right.

How to create your personal Place of Power.

How to create and dissolve a magick circle.

The role that mental will plays in magickal work.

Why many people desire exterior changes in order to achieve interior feelings.

The three changes that can be brought about by interior magick.

The main benefits of working interior magick.

How to create and use a Vibratory Sphere.

How to work exterior magick (create situations, events, etc.) by creating and using thought-forms.

How to create and use Tulpas to work on your behalf.

How to explore alternative planes of existence.

The concept of Universe Switching, and how to use it.

How to use a Tulpa as a vehicle of self-transformation.

And more!

Each section of The Art & Science of Magickal Creation explains how to apply the knowledge provided in a practical way, along with specific instructions. For example, when you learn about manifesting with thought-forms, you will learn how to use this powerful technique to increase your wealth and material prosperity. When you study the subject of your Vibratory Sphere, you will learn how to beat bad habits, develop good ones, become more attractive to members of the opposite sex and positively influence your superiors at work.

The Art & Science of Magickal Creation is not merely a course in theory. It is, above all, a course in how you can use genuine Magick in your daily life in order to achieve real-world results. That being the case, you will not have to believe in anything in order to get results – simply apply what you learn and the results that you get from doing so will speak for themselves!
